Multimedia and Creative Technology graduate combining fullstack development, AI, interfaces and connected hardware. Hands-on experience with Python/FastAPI, Java and React/Vue.

SELECTED PROJECTS

DeckForge AI

2026

Local AI image generation

Python • FastAPI • Pydantic • React • TypeScript • Three.js

Built a fullstack app with an interactive 3D skateboard preview. Trained three Stable Diffusion LoRA style adapters; integrated reference images, upload validation and generation progress.

API, component and browser tests with pytest, Vitest and Playwright; GitHub Actions CI and documented design decisions.

View GitHub repository

SK8Sense

2026

Connected skateboard coach

ESP32 • React Native • BLE • Firebase • Firestore • Claude API

Built a hardware and mobile prototype streaming IMU and pressure data over BLE to a live dashboard. Implemented rule-based trick detection, authentication, session history and AI coaching based on session data.

DEVELOPMENT EXPERIENCE

BeerSecret

Jan – Apr 2026

Software Development Intern

Automated internal booking and operational workflows through FareHarbor, Zapier and Odoo integrations. Built pre- and post-experience email automations and prepared handover documentation.

TECHNICAL SKILLS

Backend
Python, FastAPI, Pydantic, Java, Spring Boot, REST APIs

Frontend
JavaScript, TypeScript, React, Vue.js, React Native, HTML/CSS

Data and AI
MySQL, Firebase/Firestore, PyTorch, Stable Diffusion, LoRA

Quality and tooling
Git/GitHub, GitHub Actions, pytest, Vitest, Playwright

EDUCATION

2023 – 2026

Bachelor in Multimedia and Creative Technology

Erasmushogeschool Brussel

Graduated September 2026

ADDITIONAL EXPERIENCE

Securitas at VUB

Summer 2026

Student Security Officer.
Two months of night shifts at Vrije Universiteit Brussel.

Earlier security roles

Securitas at DHL
Aug 2024

G4S at Orange Belgium
Aug 2023

Languages

Dutch, English, French

Driving licence

Category B
